Eco-Spirituality

Sacred gifts for life: Air, Fire, Water

A three part series led by EarthSong

Week 1. **Air**

Invisible and indivisible, air is a place without borders or owners, shared by all life on Earth... Every breath is a sacrament, an essential ritual. (The Sacred Balance, David Suzuki, p51)

Week 2. **Fire**

There is no ignoring the engine that drives the Earth and all its life. Lift up your head on a clear morning and you will see the sacred fire rising to the east. (The Sacred Balance, David Suzuki, p105)

Week 3. **Water**

Water is the raw material of creation, the source of life... The powerful symbolism of water – as transformation, purification, sharing – permeates our lives. (The Sacred Balance, David Suzuki p53)
